of the great corporation, in his testi-mony in the government's suit to dissolve the so-called trust. Until a moment be-fore the adjournment yesterday there had been no intimation that Mr. Rockefeller's direct narrative of his connection with the oil industry from 1800 until the pres-ent time would be interrupted. He had told in greatest detail of the early days of the justiness and with almost equal

the business and with almost equal plicitness of the various steps in his ompany's growth and development from

ardous nature of the oil business owing to the possibility of failure of supply, Mr. Rockefeller said that the production of

crude oil in the Pennsylvania district had steadily increased from 1862 to 1900.

Mr. Kellogg read figures from an offi-

dal report showing that the Pennsylva-dia field reacaed its highest point in pro-luction in 1900. Mr. Rockefeller denied

that the supply of crude oil had always been ample and asserted that it had fluctuated, but that the supply is larger now than when he was actively engaged in

business. He was asked about the de

elopment of oil fields in Ohlo and Okla-homa, but said that he knew little about

them, as they had been actively worked since he retired from business. He de-scribed the drilling and production of oil

as of the character of a mining business. He said it was the policy of his company to pay for its oil at the wells, and that the larger part of the oil it refined was purchased from the producer.

Always Prosperous.

"You have been prosperous since the egianing" asked Mr. Kellogg.

00 paid dividends amounting to \$791,000,000 and had left a surplus of \$300,000,000?"

"I don't consider the amount of money made determines whether the business was hazardous or not." said Mr. Rocke-

OF DIVIDENDS IN 1907

Established June 6, 1870.

Up to 1906 the Net Earnings of Horror in Brooklyn Street

CROSS-EXAMINATION OF JOHN D. WOMAN AND FIVE CHILDREN

New York, Nov. 20.—For more than the hours today John D. Rockefeller, these for the defense in the government suit to dissolve the Standard company, faced an unceasing the of questions from the federal consel, Frank B. Kellogg, and when journment was taken until Mongary the head of the oil combine was it being gross-examined on the arge that the company in its early ay accepted rebates to the disadintage of its rivals. Mr. Rockeller's cross-examination will probally not be concluded until late headay, and Mr. Kellogg made it newly a continuous that he would question Mr. ockefeller on every detail of the impany's business.

The enormous earning power of the loombination was sharply brought it in today's hearing when Mr. to ckefeller, after stating that the andural had paid dividends amounting to \$40,000.000 in 1907, said it had trued as much more and that this as added to the company's survenue, which was stated by the government's counsel to be \$300,000.000.000.

Was York. Nov. 20.—Twenty-five persons are believed to have lost their lives in an explosion of gas which tore up a great section of Gold street, Brooklyn, today. It is definitely known that fifteen persons were buried under the hundreds of tons of earth and timber thrown into the air and ten more are reported as missing. The exact number of dead can not be determined until tomorrow. For those working to recover the entombed bodies must dig through fifty feet of dirt, rock and a tangle of pipes and timbers. The explosion occurred in a fifty-foot deep exacyation that had been made in Cold street between York and Front Streets, where a water main was being laid. The gas main recently sprang a leak and in a manner unknown a spark came in contact with the escaping gas. Immediately there was a terrific explosion which lifted the surface for half a block in both directions and debris into the air.

terests of Utah to Protest Against Tariff Reduction.

WILL APPEAR BEFORE HOUSE COMMITTEE

C. E. ALLEN AND COL. C. E. LOOSE WILL PRESENT PETITION TO MEMBERS OF CONGRESS.

\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*

The meeting was called to order by John Dern, president of the Utah Mine Opera-tors' association. He announced the ob-ject of the meeting as a protest against the proposed reduction of the lead tariff. Judge Powers said last evening that he had made charges against Kimball and that he had received a letter from Mr. Bonaparte acknowledging receipt of the charges. He declined to go into the matter, saying that it is now entirely in the hands of the federal authorities.

Julian Riley, chief deputy in the United States marshal's office, stated last evening that Marshal Smyth was in receipt of a letter from the department of justice bearing on the charges against Solomon of opposing the remission of the tariff.

Before Mr. Joseph read the statistics he stated that telegrams had been sent to Senator Sutherland in Washington with regard to the action of the committee on

ways and means on the tariff on lead. The following telegram was received in reply:
"You may rely on my using every effort to ma'ntain present duty on lead. Matter will be taken up by the ways and means committee on the 25th instant. If possible it would be well for a committee of min-ing men from Utah to be present. If im-Cherbourg, Nov. 20.—The French cruis-er. Admiral Aub and Guerdon, today re-ceived orders to take on board provisions for a long cruise. The destination of the chairman of the ways and means committee protesting against the proposed reduction in the lead tariff.

Utah Ranks Third.

Mr. Joseph then read statistics which showed that during 1967 Idaho stood first in the production of lead in the United States, with a percentage of 33.7 of the ster. In an interview, M. Guernier says that souri was second with 21.3 per cent, valthe troubles at St. Pierre constitute a movement for separation from France under the guise of religious agitation. The people are contrasting their separation for the guise of religious agitation. 4.252 cents per pound, that the average price of lead from 1894 to 1897, when the tariff on lead was removed, was 3.2 cents about 19 o'clock and entombed seventy men. By heroic efforts, all but nine of this number were rescued; three were of the House.

Danville, Ill., Nov. 30.—Speaker Cannon's attention was today called to the story sent out from Hot Springs, Va., that Mr. Taft would oppose Mr. Cannon's re-election to the speakership on the ground that "Uncle Joe" would not undertake in good faith a revision of the tariff. Mr. Cannon said: until the men are reached alive or the recovered bodies have been brought

hope for the greater number of those entombed, but this belief is not shared by the mine officials. Water Company Held Responsible for San Francisco Fire.

Pit Boss William Haggerty, when carried up in one of the skips, was almost overcome, but was restored by the attending physicians. He remained bravely at his post until the very last in an endeavor to save his men, and after recuperating made frantic efforts to go back into the mine.

Everything within the vicinity of the mine is in the wildest confusion, and it is an impossibility to get a check of the members from the pay roll, so that no Valley system and its failure to provide members from the pay roll, so that no Valley system and its failure to provide estimate can be made at this time.

It is alleged in the complaint that the The fire is terrific, judging from the immense volume of smoke and fire which is being emitted from the second entry. Coal cars and lumber are ablaze and the damage to property will naturally be beavy. At 3 o'clock this afternoon iron pipes are being laid into the mines and by night it is expected there will be a flow of water playing on the flames.

The fire itself is said to be confined to a small area, but the gases and smoke have spread to various workings and it is believed that a number of men have been caught. The fire is terrific, judging from the company, when given the franchise to mmense volume of smoke and fire which s being emitted from the second entry.

# FOUR LABORERS KILLED.

Chicago, Nov. 20.—Four track laborers on a handcar were run down by a Chicago, Burlington & Quincy tailroad passenger train between Highland and La Grange, Ill., today and killed. Five others were injured.

The accident is said to have been due to a mistake on the part of the laborers, who put their car on the wrong track.

# ELECTED BY TWO VOTES.

St. Louis, Nov. 20.—Jacob F. Gmelich Republican, defeated William Painter, Democrat, for the office of lieutenant governor of Missouri by the narrow marcin of two votes, according to a special ispatch to the Post-Dispatch from Jef-terson City. The result purports to be the official revision of the count.

ONE KILLED: FOUR INJURED.

Brinkley, Ark., Nov. 29.—One man was killed and four injured today when a Rock Island freight train crashed into an extra freight a mile from this city. Tacaboose caught fire and was destroyed. Charles A. Clark, aged 27, of Los Angeles, Cal., was burned to a crisp.

# Extraordinary Precautions

The

St. Petersburg, Nov. 20.-St. Petersburg already has assumed the garb of urning for the funeral of Grand Duke Alexis, which will take place tomorow. Flags of black barred by a stripe of white have supplemented the gay Russian tri-color and hanging from every house in the capital, while the Nicholas station, at which the body of the grand duke will arrive from Paris, and the buildings along the Nevsky prospect and other thoroughfares which the funeral cortege will traverse are heavily draped with melancholy bunting. Seven inches of snow fell today and the streets will be in bad condition

Reports were in circulation in official circles this evening to the effect that Exercise were in circulation in official circles this evening to the effect that temperor Nicholas is slightly indisposed. These may mean that his majesty has decided to abandon his expressed intention of attending the funeral. Every precaution has been taken for the safety of the emperor. A dozen egiments of troops will be extended in solid lines on either side of the roadway the entire distance from Nicholas station to the fortress of SS. Peter and

norrow in case of a thaw, but arrangements doubtless will be made to clear route over which the emperor and the grand dukes will pass on foot behind

ul. Thousands of police in plain clothes will be scattered among the spectors, and other thousands of house porters, who form an auxiliary police rec. have been ordered to assist in watching the crowds.

Owners of houses have been forbidden to shelter strangers tonight.

# was added to the company's surplus, which was stated by the government's counsel to be \$300,000,000. It was further declared by Mr. Keilogg that the company within the last eight years had earned nearly half a billion dellars. New York, Nov. 20.—The last quarter century of the wonderful development of the Standard Oil company probably will not be touched upon at all in the testimony of John D. Rockefeller, the maker of the great corporation, in his testimony in the government's suit to dissolve the so-called trust. Until a moment before the adjournment yesterday there had been no intimation that Mr. Rockefeller's direct narrative of his connection with the oil industry from 1860 until the present time would be interrupted. He had told in greatest detail of the early days of the business and with almost equal

LATEST ACCOUNT.

# See That You Get Your Herald Tomorrow

There'll be pretty nearly 20,000 copies of The Sunday Herald printed tomorrow-a pretty good-sized edition for a Salt Lake paper. The Herald doesn't try to print enough papers for all the newspaper buyers of this region. It is willing to let the other newspapers have some readers. It does print papers for all its subscribers and enough in addition to supply the probable demand. Frequently the supply is exhausted before the demand ceases, so that if you want the paper it is important to order in advance. Some of the features that tomorrow's paper will contain follow:

"The Surrender." a short story, by Neva Lillian Williams. "Where Fickett Got Off," one of the Shorty McCabe stories, by Sew-"The Affair of the Panama Hat," a secret service narrative, by an ex-

Franklin Fyles' Broadway dramatic gossip. The colored supplement—the best of all.
